A voluptuousness

DISTINGUISHED

The luminosity and nobility of the gildings captivate the essence of its similarity with nature seldom invoked in a piece of illumination. It is difficult not to be carried away by its realistic forms that articulate a space. Being its axis of attention, a wonderful epicenter to admire. A voluptuous bearing that does not escape the absolute distinction.

Sinuosity
NATURAL

A fragment of the sinuosity and beauty of the deepest nature, of its oscillating and spontaneous forms... Glare of comfort that is detached by the whole stay, that gives naturalness to the style and elegance to the environment, alive in its essence, alive in its creation.

Sensitivity, life and purity

WHITE ROMANCE

With this collection of seven exclusive pieces the feelings are in full bloom, and you can see that something as deep as a romance there is in them thanks to the artisanal manufacturing process used to produce them through the work of traditional pure materials such as lost wax and glass.

Sensitivity, life and purity is what inspires us this set of pieces that represent the roughness of the most vivid, true and luminous feelings through the texture in bright lost wax and pure glass.

If anything characterises **BOHEME DESIGN** it is the professionalism and quality of finishes.
